Truckers: I-40 top U.S. highway

Nashville Business Journal

Tennessee's stretch of Interstate 40 is the top highway in the United States, according to a survey of truck drivers conducted by **Overdrive** magazine.

I-40 in Tennessee topped the list of best roads for the fourth consecutive year. Tennessee also tied with Georgia for third in the best overall roads category.

Overdrive polls more than 300 truck drivers across the nation each year asking them to rate the nation's roads and drivers, state by state. Among the questions posed to drivers include the quality of the roads, the smoothness of the riding surface, road markings and construction detour availability.
